🧩 Soft Skills

Adaptability | Teamwork

Remote Work and Online Collaboration

🧩 Interests

Learning new technologies

Helping others

📁 Projects

ECommerce App 🔗 - **GitHub** 🔗
An ecommerce app allows users to buy and sell goods and services online through their mobile devices. The app has two user roles: users who can browse and make purchases, and an admin who manages the platform, products and orders.
Features:
- Admin & User
- Registration & Login
- Authentication & Authorization
- Categories & Products
- Cart
- Orders

Tech Stack: Java | Spring Boot | Spring Data JPA | MySQL | JWT | Auth0 | Swagger-UI
Areas of Responsibility:
- Created the project individually

J.Crew 🔗 - **GitHub** 🔗
J.Crew is an E-Commerce platform where one can buy garments online. Developed collaboratively with a team of 5 in a week.
Features:
- Signup and login page
- Navbar and footer
- Products page
- Cart page
- Wishlist page
- Payment page

Tech Stack: HTML | CSS | JavaScript
Areas of Responsibility:
- Created cart page
- Built increase, decrease, and delete product options
- Implemented promocode feature
